

<b>TABLE 6-2. ANTIBIOTIC PROPHYLAXIS FOR GASTROINTESTINAL ENDOSCOPIC PROCEDURES</b>		
MEDICAL CONDITION	PROCEDURE	PROPHYLAXIS
All cardiac conditions	Any endoscopic procedure	No
All patients	PEG placement	Yes
Bile duct obstruction in the absence of cholangitis	ERCP with complete drainage	No
Bile duct obstruction in the absence of cholangitis	ERCP with incomplete drainage (PSC, hilar strictures)	Yes; continue antibiotics after the procedure
Cirrhosis with acute GI bleeding	Required for all patients regardless of endoscopic procedures	Upon admission
Cystic lesions along GI tract (including mediastinum)	EUS-FNA	Yes
Prosthetic joints	Any endoscopic procedure	No
Prosthetic valve	Any endoscopic procedure	No
Solid lesion along upper GI tract	EUS-FNA	No
Solid lesion along lower GI tract	EUS-FNA	Insufficient data to make recommendation
Sterile pancreatic fluid collection	ERCP	Yes
